

Dear Customer

◆ About the Upgrade of the Firmware

The following functions were added or changed from Ver. 2.3 of the firmware.

Please read this in conjunction with the owner's manual for the camera.

- The firmware version can be checked from the [Version Disp.] of the [Setup] menu.

[Activate] has been added to [Setup] menu.

Use an upgrade software key (optional) to enable the extended functions of the camera.

MENU →  [Setup] → [Activate]

[Export Serial Code]	Exports and saves the device information of the camera to the card.
[Import Activation Code]	Imports the activation code saved on the card.
[Activation List]	Displays the list of extended functions available for the camera using the imported activation code.

- Follow the instructions for your upgrade software key (optional) to use this menu.
