Panasonic

Wireless Speaker System
Model No. SC-NE5
SC-NE3

VQC9394

Wi-Fi® connection guide

You can wirelessly stream music from an iOS device, an Android™ device or a Mac/PC to SC-NE5/SC-NE3's speakers. To use this music-streaming feature, SC-NE5/SC-NE3 must join the same 2.4 GHz wireless network as the compatible device through the wireless network router (access point).
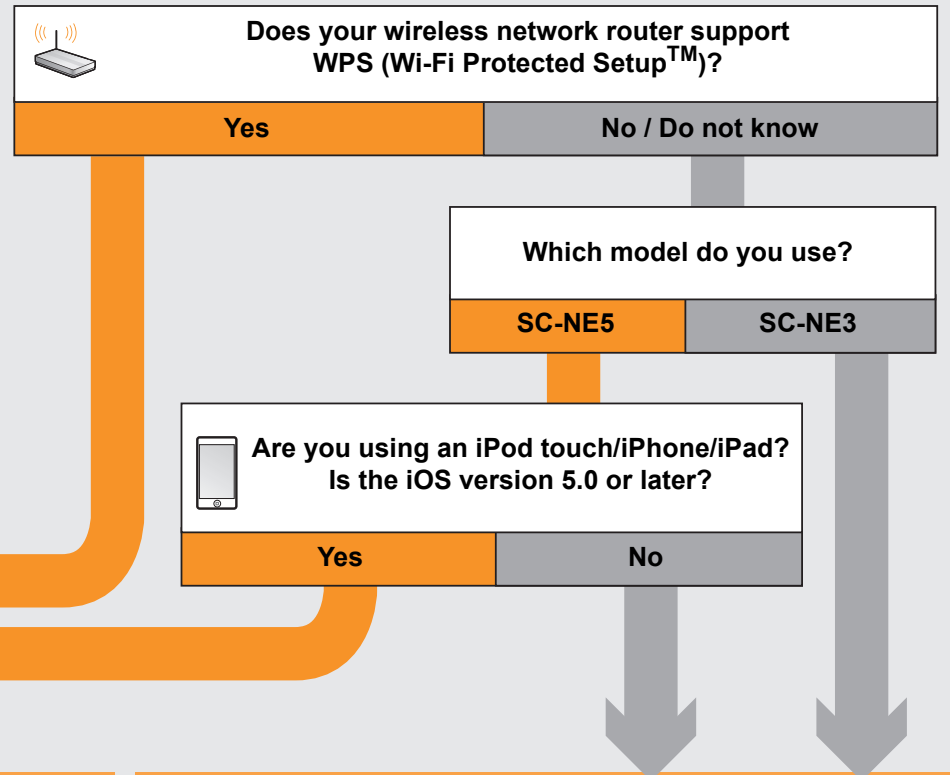

iOS device*1, Android device or Mac/PC → Wireless network router → SC-NE5/ SC-NE3

*1: Refer to the Owner's Manual for the compatibility.
Screen images used in this sheet : iPhone 4S, iOS 6.0.1

Start wireless network settings

**Preparation**
1 Place SC-NE5/SC-NE3 close to the wireless network router.
2 Turn this system on.
3 Follow the chart below to choose the network setting method.
   ● If you want to perform wireless setting with your Mac/PC, or you want to apply the advanced setting, refer to SC-NE5 "Method 4" or SC-NE3 "Method 3" in the Owner's Manual.
**Does your wireless network router support WPS (Wi-Fi Protected Setup™)?**

Yes	No / Do not know

Which model do you use?

SC-NE5	SC-NE3

Are you using an iPod touch/iPhone/iPad? Is the iOS version 5.0 or later?

Yes	No

*2 : The marking may differ.

3 Press [OK] on the remote control to exit.

Using the iPod dock (SC-NE5 only)

The following explanations are based on an iPhone.

1 Disconnect any devices connected to the CD unit.

2 Connect the iPhone to your home wireless network.

3 Connect the iPhone to the CD unit.
Choose one of the following connections.

**Lightning connector compatible iPod touch/iPhone:**

PUSH

iPod touch/iPhone/iPad with iOS 5.0 or later:

iPad

Dedicated cable supplied with the iOS device

4 Unlock your iPhone and then press and hold [−NETWORK SETUP] on the CD unit for more than 3 seconds.

VOLUME

5 A message will pop-up on the iPhone. Allow the iPhone to share the wireless network settings.

Share Wi-Fi Settings?
Do you want to share your Wi-Fi settings so this accessory can connect to the Wi-Fi network?

Ignore   Allow

6 The settings are completed when "SUCCESS" is displayed and the indicator on the speaker unit lights in blue.

7 Press [OK] on the remote control to exit.

Using the smartphone app

Panasonic

You can make the wireless network settings with the app, "Panasonic Stereo System Network Setup" (for free).
If you're using an Android device, download the app at the Google Play™ Store. If you're using an iPod touch/iPhone/iPad, download it at the App Store.

Preparation
● Connect your smartphone to your home wireless network.
● Check the password for your home wireless network.

1 Press [SETUP] on the remote control repeatedly to select "NET SETUP" and then press [OK].

2 Start "Panasonic Stereo System Network Setup" on your smartphone and follow the indications.

■ **Note for the iOS version**
After step 2
❶ Enter the password for the home wireless network to which the iOS device is connected.
❷ When a message instructing you to connect the iOS device to this system is displayed, press the home button to close the app.
❸ On the Wi-Fi network selection screen in "Settings", select "00 Setup _ _ _ _ _ _".
