Panasonic

CD Stereo System
### Model No. SC-PMX9DB

VQC9510

Wi-Fi® connection guide

You can wirelessly stream music from an iOS device, an Android™ device or a Mac/PC to SC-PMX9DB's speakers. To use this music-streaming feature, SC-PMX9DB must join the same 2.4 GHz wireless network as the compatible device through the wireless network router (access point).
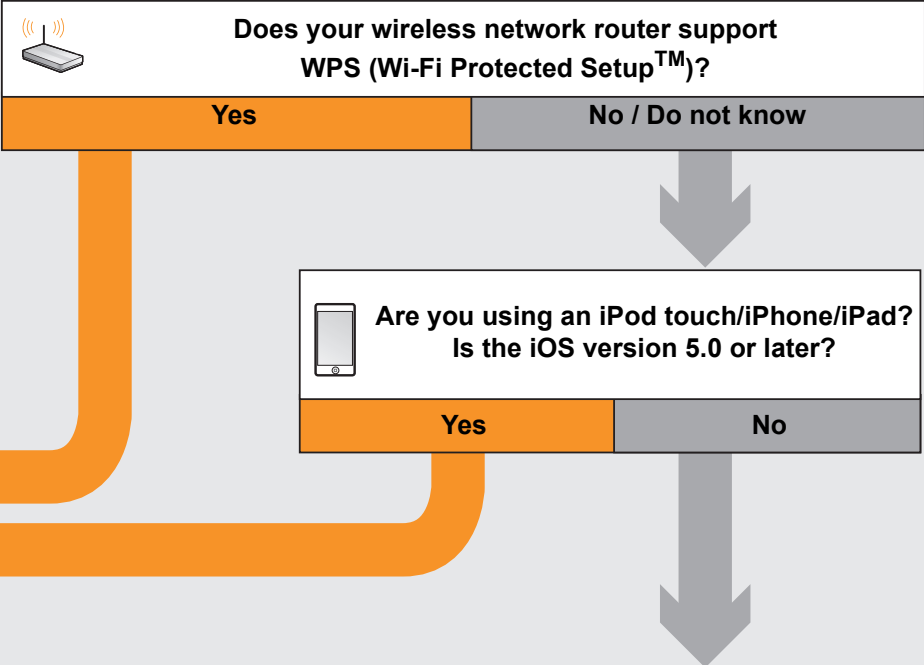

● For information on how to connect with a LAN cable, refer to "Wired LAN connection" in the Operating Instructions.

iOS device*1, Android device or Mac/PC

Wireless network router

SC-PMX9DB

*1: Refer to the Operating Instructions for the compatibility.

Start wireless network settings

Preparation

1 Place SC-PMX9DB close to the wireless network router as possible and then point the antenna on the rear of the main unit up as shown in the figure.
   ● Do not tilting the antenna forward or backwards when it is pointing up.
2 Connect the AC mains lead while the LAN cable is disconnected.
3 Turn this system on.
4 Follow the chart below to choose the network setting method.
   ● If you want to perform wireless setting with your Mac/PC, or you want to apply the advanced setting, refer to "Method 4" in the operating instructions.

Does your wireless network router support WPS (Wi-Fi Protected Setup™)?	
Yes	No / Do not know

Are you using an iPod touch/iPhone/iPad? Is the iOS version 5.0 or later?	
Yes	No

Method 1

1 Press [SETUP] on the remote control repeatedly to select "Net Setup" and then press [OK].
"With iPod" is indicated on the display.

2 Press [SETUP] on the remote control repeatedly to select "WPS Push" and then press [OK].
"WPS" flashes on the display.

WPS

3 Press the WPS button on the wireless network router.

*2

The settings are completed when "Success" is displayed and "W" is indicated on the display.

Success

4 Press [OK] on the remote control to exit.

*2 : The marking may differ.

Method 2

The following explanations are based on an iPhone.

1 Disconnect iPod/iPhone/iPad connected to the main unit.

2 Connect the iPhone to your home wireless network.

3 Connect the iPhone to the main unit.
Choose one of the following connections.

Lightning connector compatible iPod touch/iPhone:

iPod touch/iPhone/iPad with iOS 5.0 or later:

iPad

Dedicated cable supplied with the iOS device

4 Press [SETUP] on the remote control repeatedly to select "Net Setup" and then press [OK].
"With iPod" is indicated on the display.

5 Unlock your iPhone and then press [OK] on the remote control.

6 A message will pop-up on the iPhone. Allow the iPhone to share the wireless network settings.

Share Wi-Fi Settings?
Do you want to share your Wi-Fi settings so this accessory can connect to the Wi-Fi network?
Ignore | Allow

7 The settings are completed when "Success" is displayed and "W" is indicated on the display.

8 Press [OK] on the remote control to exit.

Method 3

Panasonic

You can make the wireless network settings with the app, "Panasonic Stereo System Network Setup" (for free).
If you're using an Android device, download the app at Google Play™. If you're using an iPod touch/iPhone/iPad, download it at the App Store.

Preparation
● Connect your smartphone to your home wireless network.
● Check the password for your home wireless network.

1 Press [SETUP] on the remote control repeatedly to select "Net Setup" and then press [OK].
"With iPod" is indicated on the display.

2 Press [SETUP] on the remote control repeatedly to select "Manual" and then press [OK].

Setting

3 Start "Panasonic Stereo System Network Setup" on your smartphone and follow the indications.

■ **Note for the iOS version**
After step 3
❶ Enter the password for the home wireless network to which the iOS device is connected.
❷ When a message instructing you to connect the iOS device to this system is displayed, press the home button.
❸ On the Wi-Fi network selection screen in "Settings", select "00 Setup _ _ _ _ _ _".

Settings Wi-Fi
Wi-Fi ON
Choose a Network...
✓ 00 Setup _____

❹ When a message indicating the completion of the connection to this system is displayed, restart the app.

❺ When a message indicating the completion of the Wi-Fi setup of this system is displayed, close the app, and then check the operation of AirPlay, etc.

Using AirPlay

The following explanations are based on an iPhone.

1 Connect the iPhone to your home wireless network.

"Settings" ▶ "Wi-Fi" ▶ Turn on ▶ Your home wireless network name (SSID)*3

*3 : You may be prompted for the password. Enter the password of your home wireless network.

2 Select "Panasonic PMX9 _ _ _ _ _ _" from the AirPlay icon and start play.

"Music" ▶ ▶ "Panasonic PMX9 _ _ _ _ _ _" ▶ ▶ Play starts. (with a slight delay)
